count(...)

```
create table a (b integer, c integer);
insert into a values (1, 2);
insert into a values (2, 2);
insert into a values (2, null);
insert into a values (3, null);
insert into a values (4, null);
insert into a values (null, null);

select count(*) from a;               // 6
select count(c) from a;               // 2
select count(all c) from a;           // 2
select count(distinct c) from a;      // 1
```
