License agreement about the use of the WideNoise dataset

The undersigned,

Name:

Institution:

Address:

Telephone:

Fax:

E-mail:

Website:

agrees to the following conditions about the use of the WideNoise data set:

1. The data set may be used for noncommercial, research purposes only.
2. The data set may not be given to third parties.
3. No attempts will be made to recover personal information such as e-mail addresses or user IDs of anonymized users represented in the data set.
4. Results obtained from the data set may only be published with anonymized user IDs; no real user IDs may be used.
5. Should results obtained from the WideNoise dataset be published, the undersigned agrees to notify the Knowledge and Data Engineering Group about the publication and provide a copy (PDF file) of the publication at the time of publication (e.g., the conference date).
6. If you use this data, you must cite the following article:
